Associate Market Research Analyst · ICT & Enterprise Technology · Competitive Intelligence ·
SPARK Matrix · MBA

Manchester, United Kingdom | [linkedin.com/in/akshaysingh-chandel-83a68a103](https://www.linkedin.com/in/akshaysingh-chandel-83a68a103)

PROFESSIONAL SUMMARY

Research analyst with 3+ years of experience delivering actionable intelligence across global ICT and supply chain technology markets. Proven track record in competitive benchmarking, vendor evaluation, market sizing, and translating complex research into clear business recommendations for senior stakeholders. At Quadrant Knowledge Solutions, produced SPARK Matrix reports — published by global technology vendors including GEP, GreyOrange, Radial, and CobbleStone — covering market positioning, growth opportunity identification, and strategic business challenges across supply chain management and unified commerce domains. Equally comfortable presenting findings to C-suite audiences and engaging in counter-questioning to pressure-test conclusions. Engineering graduate with dual MBA qualifications, combining analytical rigour with strong written and verbal communication.

EXPERIENCE

Market Research Analyst

Quadrant Knowledge Solutions · Pune, Maharashtra, India

May 2019 – Jan 2023

Delivered SPARK Matrix competitive intelligence reports across Supply Chain Management and Unified Commerce domains — used by global enterprise vendors in their own press releases and market positioning.

- Conducted end-to-end market sizing and competitive analysis — evaluating vendors across performance parameters, market share, and growth trajectory by segment and region
- Monitored competitor activity across press releases, acquisitions, product launches, and marketing efforts — regularly advising on threats and positioning shifts in target markets
- Produced actionable intelligence to support vendor selection strategy and technology planning for enterprise buyers across 180+ countries
- Led and co-led strategic briefing sessions and presentations with C-suite executives at leading technology vendors — fielding and counter-questioning senior stakeholders on market data and research conclusions
- Conducted primary research through user surveys and interviews — capturing ground-level insights on technology adoption, deployment challenges, and customer expectations
- Translated complex multi-source research into concise business recommendations for internal and external clients, connecting macro-economic trends to specific market opportunities
- Tracked emerging megatrends and industry convergence patterns across ICT and supply chain technology sectors — identifying growth opportunities and strategic inflection points
- Authored published research cited in press releases by Radial, GEP, GreyOrange, and CobbleStone — demonstrating output quality recognised at the enterprise vendor level

Duty Manager – Operations & Guest Experience

Maldron Hotels · Manchester, UK

Feb 2023 – Present

Led multi-department operations with accountability for team performance, revenue delivery, and data-driven operational decisions.

- Analysed daily revenue reports, covers data, and footfall patterns to identify trends, flag underperformance, and recommend corrective actions
- Conducted competitor rate analysis across local Manchester market to benchmark pricing and support revenue management decisions
- Managed upselling and cross-selling of F&B services and in-house packages, contributing to revenue targets
- Planned and executed end-to-end corporate and social events — from client briefs to on-ground delivery

- Managed shift teams of 8–12 across departments, maintaining high service delivery and guest satisfaction standards
- Maintained operational reporting, shift handover documentation, and compliance records

Business Development Executive

e-Port Logistics Pvt Ltd · Mumbai Metropolitan Region

Mar 2019 – May 2019

- Managed air and sea freight forwarding operations for domestic and international shipments
- Handled client acquisition, CRM updates, quotation preparation, and negotiation with logistics partners

Summer Intern

Apogee Logistics (India) Pvt Ltd · Pune, India

May 2018 – Jul 2018

- Supported operations and client coordination, gaining exposure to supply chain workflows and documentation
